**NOTICE OF RESPONSIBILITY RESTRICTION**

Despite the exerted efforts to make this Manual more exact, some discrepancies may occur. The information in this Manual is given on "as is" terms. The author and the publisher do not bear any liability to a person or an organization for loss or damage, which has arisen from the information contained in this Manual.

**PURPOSE**

SVEN SPECIAL power strip is designed for connection of electrical appliances to the electric mains.

**FEATURES**

- Special type power strip is designed to be used with uninterruptible power supplies, voltage regulators and other devices with IEC-320 output sockets
- High-impact case made of non-flammable material (ABS plastic) ensures high fire safety level
- Wall mount possibility

**SAFETY PRECAUTIONS**

- Do not connect the power strip to power mains with overrating voltage.
- Do not connect simultaneously the load to the power strip with the total power more than 2200 W.
- Do not use in places with possible ingress of liquid, moisture, dust and high temperature exposure.
- Do not open and do not make any repairs by yourself.
- It is recommended to connect the power strip to the grounded power mains.

**TECHNICAL SPECIFICATIONS**

Rated voltage, V	220
Operating frequency, Hz	50
Total connected load power, kW	≤ 2.2
Temperature fuse operating current, A	10
Input plug	IEC-320
Output sockets	5 × CEE 7/4
Cable length, m	1.8; 3.0; 5.0
Dimensions (W × H × D), mm	285 × 50 × 40

***Note. Technical specifications given in this table are supplemental information and cannot give occasion to claims. TM SVEN production is improved constantly, therefore Technical Specifications are subject to change without prior notice.***
