

USER'S MANUAL**NOTICE OF RESPONSIBILITY RESTRICTION**

Despite the exerted efforts to make this Manual more exact, some discrepancies may occur. The information in this Manual is given on «as is» terms. The author and the publisher do not bear any liability to a person or an organization for loss or damage which has arisen from the information contained in this Manual.

1. BUYER RECOMMENDATIONS

- Unpack the device carefully. Make sure there are no accessories left in the box. Check up the device for damage; if the product was damaged during transportation, address the firm which carried out the delivery; if the product functions incorrectly, address the dealer at once.
- Check up the package contents and availability of the warranty card. Make sure the warranty card has a shop stamp, a legible signature or the seller's stamp and purchase date, and the goods number corresponds to that in the warranty card. Remember, warranty service is possible if you have a warranty card or a cash receipt confirming the purchase.
- Before installing and using the speaker system, read this Manual carefully and keep it for future reference.
- Shipping and transportation equipment is permitted only in the original container.
- Does not require special conditions for realization.
- Dispose of in accordance with regulations for the disposal of household and computer equipment.

2. PACKAGE CONTENTS

- Surge protector – 1 pc
- User's Manual – 1 pc
- Warranty card – 1 pc

3. SAFETY PRECAUTIONS

- Do not connect simultaneously the load to the surge protector with total power more than 3600 W.
- Connection of the surge protector to a non-sinusoidal voltage source, such as UPS, is not recommended.
- When signs of failure are found (for example, the output voltage absence in a socket), mechanical damages, high temperature of the item or the odor, the item must be disconnected immediately from the wall socket and you should address to a service center.
- If the protection status indicator is out of order, the surge protector should be replaced it with a new one.
- Do not open and never attempt to repair the item by yourself, it should be repaired by qualified persons only.

4. PURPOSE

SVEN SF-S1U surge protector is designed to protect household appliances and computers. The device falls in surge protection devices (SPD) of the limiting type.

5. FEATURES

- Impact-resistant housing made of non-combustible material (ABS-plastic)
- 2*USB ports for charging different devices (MAX 2.4A)
- Varistor protection against high-voltage pulses
- Childproof. Protecting shutters provide additional protection against ingress of foreign objects, as well as prevent to access of children into the device.

Design description

- ① Ground contacts
- ② Protecting shutters
- ③ USB port for charging different devices (MAX 2.4A)
- ④ Plug
- ⑤ Protection status indicator

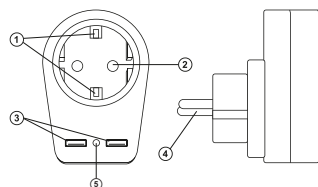

Fig. Construction

Connection, operation

- Connect the surge protector to 230 V mains.
- Connect required electrical appliances to the surge protector socket. The load must not exceed 3600 W.
- Lighting indicator means the protection circuit serviceable condition.
- Connect the surge protector to a grounded socket.

6. TECHNICAL SPECIFICATIONS

Rated voltage, V	~250
Maximum permissible load, W	3600 MAX
Output socket	CEE 7/4 grounded
Rated load current, A	16
Maximum energy absorption of pulse interference, J	150
USB ports output power, W	12(5V/MAX 2.4A)
Dimensions (W × H × D), mm	80 x 56 x 77(58)
Weight, kg	0.078
Color	white, black

Notes:

- *Technical specifications given in this table are supplemental information and cannot give occasion to claims*
- *Technical specifications are subject to change without notice due to improvement of SVEN production.*
