**PACKAGE CONTENTS**

- Microphone – 1 pc
- Antenna – 1 pc
- Receiver – 1 pc
- AA type batteries – 2 pcs
- XLR - 6.3 mm jack signal cable – 1 pc
- User's Manual – 1 pc
- Warranty card – 1 pc

**SAFETY PRECAUTIONS**

- Do not install in locations where liquid, moisture, dust and high temperatures.
- Do not open or repair by yourself. In case of malfunction, contact the device for professional advice at your nearest service center.

**SPECIAL FEATURES**

- Dynamic microphone in the plastic (MK-720) / metal (MK-770) case
- Wired / wireless transmission of audio signals

**CONNECTING THE MICROPHONE**

1. Install the AA battery in the signal receiver. Observe the polarity as indicated on the receiver case.
2. Remove the battery cover. Install the AA battery into the microphone. Observe the polarity as indicated on the microphone case.
3. Connect the signal receiver to the sound source.
4. Connect the antenna to the microphone.
5. Turn on the microphone and the receiver: Set switch to ON.
6. To connect the microphone can use a cable that connects directly to the microphone. In this case, the battery is not required, and unmute the microphone by setting the switch in MIC position.

**OPERATION OF MICROPHONE**

1. If the quality of microphone sound deteriorated, replace the microphone and receiver batteries. Also try to change the position of the receiver antenna to achieve optimum performance.

**Attention.** *When you first turn on the signal quality is poor, it is necessary to conduct an accurate receiver tuning by adjusting the tuning element ① (Fig. 1) using a small screwdriver.*

2. Remove the battery when you are not planning to use the microphone for a long time.

3. If you turn off the microphone may cause unwanted noise.

4. In case of insufficient signal quality or increase the noise level, it is necessary to adjust the receiver using a thin dielectric screwdriver. To do this, use a special hole ① on the top of the device.

**Attention!**

- **Protect the unit from direct sunlight and rain. Keep it away from electromagnetic waves.**
- **Do not hold the microphone to the speaker, and to each other.**
