- After finishing your work, you can pull out the receiver ⑥ from the PC USB port and insert it into the mouse (Fig. 6). When using the receiver ⑥ again, pull it out from the mouse (Fig. 7) and connect it to the PC USB port again.
- Do not place the receiver into a confined metal space (table drawer, box, safe), as a metal screen does not transmit radio signals.
- If the batteries are discharged, the mouse works in jerks. It means that the batteries should be replaced with new ones, as it is shown in Fig. 4.
