**NOTICE OF RESPONSIBILITY RESTRICTION**

Despite the exerted efforts to make this Manual more exact, some discrepancies may occur. The information of this manual is given on «as is» terms. The author and the publisher do not bear any liability to a person or an organization for loss or damage which has arisen from the information contained in this Manual.

**UNPACKING**

Unpack the device carefully. Make sure there are no accessories left in the box. Check up the device for damage; if the product was damaged during transportation, address the firm which carried out the delivery; if the product functions incorrectly, address the dealer at once.

**ATTENTION!**

Do not switch on the speaker system immediately after you bring it into a room from environment with negative temperature! After unpacking, the speaker system should be kept in conditions of room temperature for at least 4 hours.

***Please fully charge the battery before the first use. Sound distortion may occur at low battery level.***

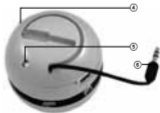

Fig. 2. Bottom view

**ACCUMULATOR CHARGING**

- To charge the battery, connect the device to a USB port of an operating PC or to an AC/DC adapter with a USB connector (not included), as shown in Fig. 3.
- At charging, the LED lights up red. The LED goes out if the accumulator is charged.
- Charge time: from an AC/DC adapter — 2.5 hours, from a USB port — 4 hours.

**LOCATING**

To increase sound volume, open the speaker capsule in such order before use:

- Find the marks next to the USB port as shown in Fig. 4.
- Press both sides until they meet.
- Make sure that the marks at each side match as shown in Fig. 4.

*Fig. 3. Accumulator charging*

- Twist the capsule cap counterclockwise to open the BOOGIE BALL R capsule.
- After operating the speaker and before transporting it, make steps 1-3 and twist the capsule cap clockwise to close the BOOGIE BALL R capsule.

**Note.** *Extend the resonator at no more than 2 cm.*

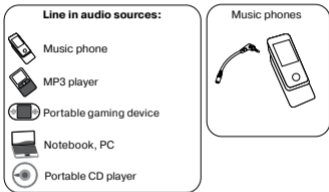

- ① Marks
- ② Open
- ③ Close
