NOTICE OF RESPONSIBILITY RESTRICTION
Despite the exerted efforts to make this Manual more exact, some discrepancies may occur. The information in this Manual is given on "as is" terms. The author and the publisher do not bear any liability to a person or an organization for loss or damage which has arisen from the information contained in this Manual.

BUYER RECOMMENDATIONS
• Unpack the device carefully. Make sure there are no accessories left in the box. Check up the device for damage; if the product was damaged during transportation, address the firm which carried out the delivery; if the product functions incorrectly, address the dealer at once.
• Check up the package contents and availability of the warranty card. Make sure the warranty card has a shop stamp, a legible signature or the seller's stamp and purchase date, and the goods number corresponds to that in the warranty card. Remember: in case of warranty card loss or discrepancy of numbers you forfeit the right for warranty repairs.
• Before installing and using the speaker system, read this Manual carefully and keep it for future reference.
• Shipping and transportation equipment is permitted only in the original container.
• Does not require special conditions for realization.
• Dispose of in accordance with regulations for the disposal of household and computer equipment.
• The date of manufacture of the product is indicated on the box.

CONNECTION AND OPERATION
Attention! The built-in battery must be charged completely prior to the application.
Speaker system battery charging
• Connect speaker system to a USB port of PC or USB charger using Type-C to USB cable (included). When charging, the indicator ⑩ lights up in red. Indicator ⑩ goes out if the battery is charged.
• The battery is used in the speaker system as an integral part of the device, therefore do not try to extract or replace it, because this can result in the warranty cancellation or the device damage.

OPERATION MODES
Bluetooth mode
• Wireless data transfer via the Bluetooth protocol enables to connect speaker system to compatible devises. Maximum radius of action of data transfer is 10 m. Such obstacles as walls or other electronic devices can interfere with the signal transfer.
• Turn on the speakers in Bluetooth mode.
• It is necessary to select the search mode of devices with Bluetooth on a signal source (telephone, notebook, smartphone, etc.). «SVEN PS-275» massage will be displayed on the screen which is to be connected to*.
• When connection is successful, there will be a short beep**.

Radio mode
To improve radio reception, connect USB-Type-C cable (included) to the input ⑨.
• Turn on the speaker system – press button ⑥ several times until, the radio mode will turn on. Double press button ⑤ activates auto search mode. After scanning complete, the first scanned radio station will start to operate automatically. With buttons ② and ③ select a desired radio station.

MP3 player mode
Attention! The file system of a micro SD or USB flash carrier is FAT32. Maximum volume is 32 GB. It is not recommended to use the micro SD Ultra Speed.
• Insert the USB flash or micro SD carrier into appropriate slot. If the speaker system is turned on position, the playback will start automatically. Playback/Pause modes are switched over with the help of the button ⑤. Tracks can be controlled by buttons ③ (previous track) and ② (next track).

Connecting an additional speaker
For model «SVEN PS-275» you can connect an additional speaker (Bluetooth mode only):
• Connect one speaker to a signal source via Bluetooth.
• Briefly press button ⑥ on the connected speaker, to activate the search mode, the second speaker must be in the search for BT.
• The speakers will connect with each other.
Note. At the subsequent inclusion of both speakers, they will be connected automatically.

* You might have to enter «0000» code to connect some models of devices via Bluetooth.
** If the item has been already registered in the device list of a source, then the second search mode activation is not obligatory. Choose the item name «SVEN PS-275» and the «connect» command on the source.
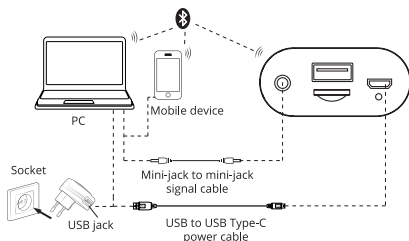

Fig. 2. Connection diagram

The use in the wired mode (AUX)
• Speaker system can be used as an external device for amplifying any audio source with a 3.5 mm output mini-jack. To do this, connect a cable 3.5 mini-jack – 3.5 mini-jack to the audio input AUX ⑦.
